To all parents

16th December 2020

Dear parents!

Starting from today, all of our day-care centres offer emergency childcare throughout the nationwide corona lockdown. This is currently planned to last until 10th January. However, no one can say with any certainty when we will be able to resume normal day-care services. In the interest of infection prevention all parents are urgently asked to take care of their children at home. We are sure that many of you will be able to do so. **Thank you for your support!**

This also means: Many children will once again not attend the day-care centre for several weeks. Our experience from the lockdown earlier in the year shows that this can be very tough on the children. It's therefore very important to us that all children not attending the day-care centre still can have regular contact with their educators.

Your day-care centre will get in touch with you in the next few days with contact details for a member of staff who you can email or phone with any issues you might have. Our childcare staff will actively contact children who are not attending the day-care centre twice per week. Which exact form this contact will have is up to them. Important is: Contact between children and their educators shall be maintained at all day-care centres.

During the Christmas closure we have an urgent request for you: Should your child become infected with corona, please immediately inform us via email at **corona-kontakt@kindergaerten-city.de**. This will allow us to identify the category 1 contact person of your child in the day-care centre and pass this information on to the local health authority. This is the only way we can break the infection chain. **Thank you for your help in this matter, too!**

One third and final thing: Current information on new rules affecting the operation of our day-care centres will be published on our website **www.kindergarten-city.de**. Please check the latest information there before you bring your child back to the day-care centre on 4th January.

We wish you and your family relaxed and recreative holidays. Stay healthy!

Warmest regards,

Claudia Freistühler  
Business Director

Katja Grenner  
Educational Director
